

SUMMARY OF RESULTS

Having received and collated the above information from the majority of staff we can summarise that we consider we are a diverse firm with a fair mix of answers across the board. We have a broad age range with a mix from 16 to over 65 years, with our majority in the 25-34 years age range bracket. We have a 50:50 mix of males:females. There is a spread of answers across most boxes, although we do acknowledge that we have mostly a heterosexual/white british orientated staff base. This is only derived at from the ability and suitability of the candidates who applied at the time and the most suited candidate being offered the position. Due to our small business size and location out of a city where mostly local people apply who are of white british origin this is what leads us to the trend of having predominantly white british staff. We are a diverse firm who hold no preference to who we employ and we seek the most suited candidates based on their ability only.
